2024 New Branding, Award Winning Marketing

What an exciting start to '24 - the launch of my new business this year has already resulted in an award for Digital Marketing Excellence (top performing salesperson in Otago for Q1/24) with my average listing engagement at over double the average.

The importance of digital and social marketing cannot be underestimated. In today's competitive landscape, connecting with your audience through these channels is essential for success.

My strategic approach across all digital platforms has resulted in the highest engagement rates across the board, validating the effectiveness of my marketing strategies and systems.

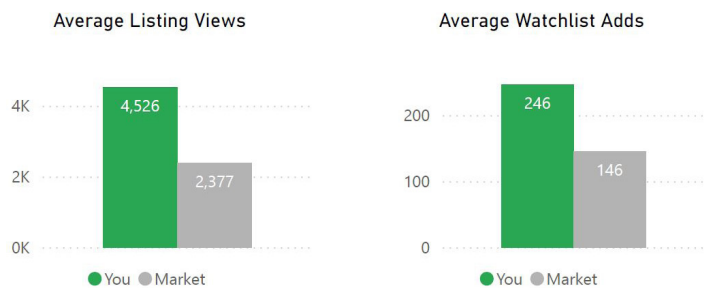

Check out my new website that's resonating with sellers and buyers.

With nearly two decades of industry experience in engaging with buyers, building trust, and negotiating effectively - the combination of expertise and cutting-edge marketing techniques positions my business well in an ever-changing business environment.

And finally - a huge thank you to my loyal clients and friends for your unwavering trust and support - without you I couldn't achieve my dream of taking my business to the next level.

Average Listing Engagement
